Professional Summary

DevOps enthusiast with foundational knowledge of Linux, Docker, Git, and CI/CD concepts, along with hands-on experience in deploying applications on AWS EC2 and managing containerized environments. Passionate about automation and building scalable and reliable systems.

In addition, I have a growing interest in Digital Marketing, with basic knowledge of SEO and Social Media Marketing. I enjoy creating engaging content, analyzing performance, and applying modern marketing strategies to improve online visibility and business growth.

Eager to start my career as a DevOps Engineer while also leveraging digital marketing skills, and continuously learn modern tools, technologies, and best practices.

Work Experience

Kragen Innovations LLP

Chennai

Frontend Developer | DevOps (AWS) | Digital Marketing Intern

June 2025 – Present

- Developed responsive web applications using HTML, CSS, Bootstrap, Tailwind CSS, React.js, and Next.js.
- Deployed and maintained web applications on AWS EC2, configured Linux servers, and monitored system performance.
- Managed source code using Git and supported application deployment through basic CI/CD workflows.
- Optimized website performance, fixed bugs, and ensured cross-browser and mobile responsiveness.
- Created digital marketing content and social media campaigns to improve brand visibility and audience engagement.
- Collaborated with development and marketing teams to deliver high-quality web and digital solutions.

iNoesis Technologies Private Limited

Chennai

Front-End Developer & DevOps (AWS) Intern

May, 2025-May, 2026

- Deployed web applications on AWS EC2 and managed cloud-based infrastructure, reducing downtime by 30%.
- Managed application deployments using Git and basic CI/CD workflows.
- Configured and maintained Linux servers using command-line tools for optimal performance.
- Managed API integrations with social media platforms, configured authentication and callbacks, and supported automated content publishing and account connectivity.
- Developed responsive web applications using HTML, CSS, Bootstrap, React.js, Tailwind CSS, Next.js.
- Customized Bootstrap components and UI frameworks to enhance user experience.
- Ensured cross-browser compatibility and mobile responsiveness, achieving a 20% increase in mobile traffic.

Pentagon-Innovations (MCC)

Front-End Developer Internship

Chennai

July, 2024-Oct, 2024

- Developed responsive web applications using HTML, CSS, Bootstrap, React.js, and Next.js.
- Built reusable and scalable UI components improving development efficiency.
- Collaborated with UI/UX designers to enhance layout consistency, reducing bounce rate by 15%.
- Improved user satisfaction by 25% through optimized UI performance.
- Ensured cross-device and cross-browser compatibility.
- Containerized applications using Docker for streamlined deployment.

Education

Madras Christian College

Bachelor of Computer Application

Chennai

Jul, 2022-Apr, 2025

University of Madras - Distance Education

Master of Computer Application

Chennai

Jul, 2025-Jul, 2027

Technical Skills

Frontend

- HTML
- CSS
- Bootstrap
- JavaScript
- React.js
- Next.js

Backend/Database

- Python (Basic)
- MySQL

DevOps & Cloud

- Linux
- Docker
- Git / GitHub
- CI/CD
- AWS EC2

- Search Engine Optimization (SEO)
- Social Media Marketing (Instagram, Facebook, LinkedIn, Youtube)
- Content Marketing
- Content Creation
- Social Media Handling
- Video Editor
- Prompt Image creator

Projects

Enhancing Accessibility with Hand Gesture Recognition

- Hand gesture recognition for cursor control.
- AI-generated audio feedback.

Tech Stack: Python, OpenCV, MediaPipe, LLaMA 2, Computer Vision.

Real-time assistive system for visually impaired users

AI Proctoring & Video Conferencing Web App

- Developed an AI-based online proctoring and video conferencing web application with real-time eye tracking, voice detection, multi-face recognition, video/audio calls, screen sharing, and chat.
- Built RESTful APIs using FastAPI and containerized the application with Docker; tested APIs using Postman.
- Tech Stack: Python, FastAPI, OpenCV, Docker, Postman, React Native, WebRTC, Expo.

Cross-platform mobile app for video conferencing

ContentHub.DIY – AI-Powered Social Media Management Platform

- Developed an AI-powered social media management platform that integrates 7+ social media platforms through secure OAuth and REST API integrations for unified account management, content publishing, scheduling, and analytics.
- Built client-server architecture with platform-specific authentication, callback handling, API integrations, and AI-powered content generation for creating and managing social media content.
- Tech Stack: React.js, Node.js, REST APIs, OAuth 2.0, OpenAI API, JavaScript, HTML, CSS, Git, GitHub, AWS.
